Welcome

FALL FEST ANNUAL PRODUCTION SALE

We would like to give our consignors a GREAT BIG THANK YOU, without them these sales would not be possible.

Both the ETSSA, which is the oldest area Association in Texas, and HOTSSA are steeped with a long-standing tradition of producing top quality cattle that will perform in any type of herd that a producer might have. Our two Associations represent some 2000 head of cattle. We are continuing our thought process, which is to honor a different breeder each year. These programs have stood the test of time and through their diligence and hard work have not only had an impact on the breed but also on the beef industry.

HOSTED BY EAST TEXAS SIMMENTAL/SIMBRAH HEART OF TEXAS SIMMENTAL/ SIMBRAH ASSOCIATIONS

SALE DAY NUMBERS

Keith Strack: 281-455-5896

Justen Stark: 903-355-8070

Warren Garrett: 903-316-2889

Kenneth Airheart: 903-539-1666

AUCTIONEER

Greg Clifton: 817-313-5250

HOTEL INFORMATION:

**Holiday Inn Express, 300 N Kilgore Drive,
Henderson TX: 903-657-5250**

Baymont Inn, 410 Hwy 79 South, Henderson, TX: 903-657-7900

TERMS AND CONDITIONS: All cattle sell under the suggested Terms and Conditions of the American Simmental Association and are available at www.simmental.org.

Texas is officially classified as free of Brucellosis and TB

LIABILITY: All persons who attend the sale do so at their own risk. Neither the consignors nor the management assume liability legal or otherwise, for any accident that may occur.

This year's honorees are Simmentals of Texas, Scott Riddle and Fred Schuetze. These two men have bred, raised, promoted and advanced every breed in Simgenetics. Thank you, Scott Riddle and Fred Schuetze, for all that you have done and continue to do.

*Thank You,
Keith, Justen and Kenneth*

WHAT AN EXCITING OFFERING TO START OUR SALE OFF WITH!

Buyer will have the opportunity to select their choice of two full brothers sired by the high performing LMC Chairman bull and out of the champion LMC SSC Catalina donor. Both bulls are solid red, well balanced, and smooth made.

Like their sire and dam, breed character and depth of body are also strong suits of these two promising herd sire prospects. Study their pedigree, you have some strong maternal power behind them in that their dam is a direct LMC Daydream daughter and their paternal grand dam, LMC BBS Jenna, is a direct BBS Jennie Walker daughter herself. Talk about some serious COW POWER behind your next herd bull. They currently boast impressive performance and maternal EPD's that have them in the Top 35% for both API and TI. Get in on the ground floor on these young studs, you will not be disappointed!

Hard Not to Love is a black, homozygous polled Purebred Simmental bull. We bought his Dam as a bred heifer in the Red River Farms production sale. We are sure glad we did as he has really been a standout ever since he hit the ground. We wanted to bring our best and as his name says, we think everyone will LOVE HIM. We have 5 cows bred to him to calve next Spring. We may wish we had not sold him.

Danger Zone is a Red Purebred Simbrah bull, that is chocked full of muscle. A real standout since he was born. His pedigree goes back to LMC Johnny Walker, on the top side, and LMC Rhino and Pine Ridge Ranch PRRfect Daisy, on the bottom side. Danger Zone is a virgin and will make someone a really nice herd bull.

PUREBRED SIMBRAH

Powell Simbrah Selling Choice Show Prospect

We are selling choice of these full sister show calf prospects. The calves are the result of a flush mating of our Donor cow, Maggie (2735995), and WS Pilgrim (2485318). We have kept a couple of their full siblings in our herd and they have made excellent mothers. These heifers will be halter broke and ready for the show ring by sale day. If you know any juniors needing a Simmental show heifer, please tell them to consider these.

rib, super topped, set on sound feet and legs with an ideal hip structure that her pedigree says she should have; clean in the shoulder structure and the presence of a FLECKVIEH female. LEAH was AI'ed on 2-14-25 to APLX Coach 37J, ASA 4057758, and SOT METER M512E, ASA 4397954, a APLX Coach son out of Lady Siegfried Keona, known as D2, from 3-19-25 to 4-29-25, was used as clean up. LEAH is palpated, safe to the AI date due 11-27-25.

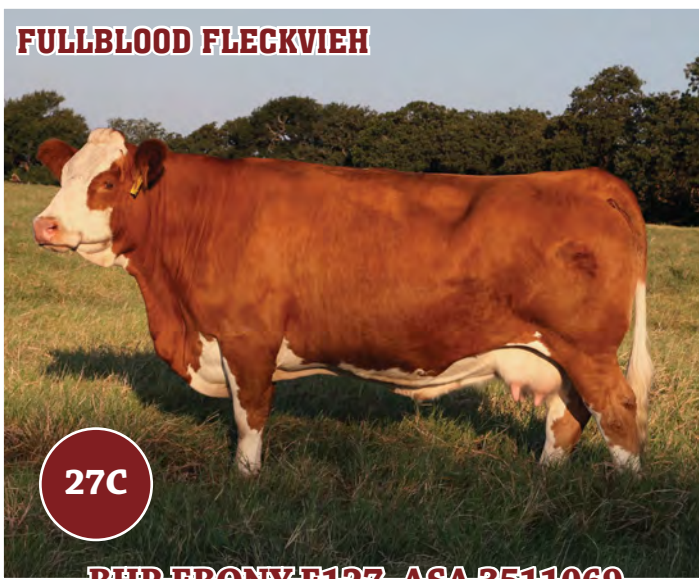

Simmentals of Texas IVF Offering!

BHR MONA'S XPRESS A306, ASA 2702708

LADY SIEGFRIED KEONA, ASA 3225226

BHR EBONY E127, ASA 3511069

SOT SOLWAY G008E, ASA 368782

SIMMENTALS OF TEXAS is proud to offer, for your appraisal; the pick of four proven donors, for a IVF aspiration, to the sire of your choice, with several sire exclusions on specific donors. The major exclusion is STARWEST POL CARTEL, unless the purchaser has purchased a semen share in CARTEL either in the USA, CANADA, MEXICO, SOUTH AFRICA or BOSWANA.

The other sire exclusions are; ANCHOR T LEGEND and APLX COACH on LADY SIEGFRIED KEONA; APLX COACH and SOT POLLED SVS J740E on SOT SOLWAY G008E; SOT JUDSON J713 on BHR EBONY E127. This exclusion of some sires is done to protect previous buyers of these females.

The aspirations will be done by HOOFSOCK GENETICS and the embryos can be made exportable if the semen used qualifies for the exporting country, except for Australia. SOT will guarantee a total of 6 embryos, and the buyer will receive all the embryos produced from the aspiration. If 6 embryos are not produced, the selected donor can be aspirated a second time to full fill the agreement. Purchaser will pay all cost of the IVF work.

BW: 86 | FB SM

LEILANI, is one of my favorites at SOT and I had to talk to myself hard to offer her for sale. I lost her maternal grand dam in 2024, LCF WINSOME 690W, which left a huge hole in my donor program until I searched and found her dam BHR EBONY E127, a P/S Raptor daughter, that I sold in 2018 to Brett Knobs from Australia that I purchased back in 2022 from Woonalle Simmentals, also of Australia that had purchased her from Brett. LEILANI is ire by FGAF DOLLAR SHAVE, ASA 4339278, to temperate her birth weight, added milk and marbling.

I don't believe that I have, to talk about either her sire or her dam because they have set the benchmark for my program at both BHR and now at SOT. LEILANI is a carbon copy of her dam with all the depth and strength associated with her with the added strength of RAPTOR that is truly one of the best polled Fleckvieh herd sires in my opinion. LEILANI was AI'ed on 2-14-25, to APLX Coach 37J, ASA 4057758, and SOT M503E, sired by APLX Coach and whose dam is Lady Siegfried Keona. SOT M503E is a flush mate to SOT Mabel M003E now owned by PB SQUARED Simmentals. LEILANI sells palpated pregnant to APLX Coach to the AI date. What a BLENDED pedigree this calf will have.

Congrats to the 2025 Simmentals of Texas' Honorees

SCOTT RIDDLE

Scott Riddle proudly carries on the family's ranching tradition since 1841. His ancestor, Will Gray, one of the original Stephan F. Austin colonizers, traded his land near present day Navasota, for the current home place in Hill County near Hubbard, Texas. After serving a stint in the Texas Rangers, Gray began a ranching institution that continues in the family today through Scott, his wife Pat, daughters Donna and Pam and granddaughters Jennifer and Katherine.

Scott attended the organizational meeting of the American Simmental Association and enthusiastically joined with a Charter Membership number of "16" naming his operation, Simmentals of Texas.

Scott and other progressive breeders in Texas met on February 14, 1970, to form the Texas Simmental Association. As a Charter Member of the TSA, he became actively involved in promoting the breed serving on the board of directors, and committees. Scott and the other pioneer breeders provided their time, input and financial support with an enthusiastic vision for the future of the Simmental breed.

In the late 1960's Scott founded the North American Simmental magazine, a breed publication to provide more information to interested cattlemen, and expound on the many benefits that the breed provided to the commercial beef cattle industry.

Scott purchased the prestigious Buzzard Hollow herd near Granbury, Texas in 2019. He bought the herd, leased the ranch and contracted with former BHR Manager, Fred Schuetze to continue to head up the program. This purchase added a full spectrum of Simgenetics to Scott's inventory – Full Fleckvieh, black and red Purebred Simmentals, SimAngus and Simbrah as well. This diverse set of Simgenetics provides Scott and Fred the ultimate in flexibility of marketing top Simgenetics.

As one of the original "movers and shakers" of the Simmental breed in the United States, he remains dedicated to the use of Simgenetics and his ranching heritage, to provide superior genetics by the use of crossbreeding with Simmentals.

FRED SCHUETZE

Congratulations Fred! SimGenetics enthusiast and breeder, Fred Schuetze has been awarded the Golden Book Award, which is the highest honor in the American Simmental Association. Well earned and the Simbrah breed has been benefitted greatly from your leadership and involvement.

Fred Schuetze has been a beef industry leader at all levels – local, state, national and international. His presence and influence on SimGenetics have spanned multiple decades as he traveled the globe introducing and promoting his favorite cattle breed. His hands on approach and commitment to the industry identify him as a standout in the eyes of all who have crossed his path.

Among a rare few who have served a total of 13 years on the ASA board (2000-2006 and 2015-2020), he has served as board chair, treasurer, publication board chair, Simbrah committee chair, foundation chair, and nominating committee chair among many.

Schuetze grew up in the Texas Hill Country on a family farm that produced cattle, sheep, goats and chickens. After graduating from Comfort High School, he received a B.S. degree from Southwest Texas A&M where he earned his Master's degree. He then went to work for the Texas Agricultural Extension Service, serving for nearly a decade as a county agent.

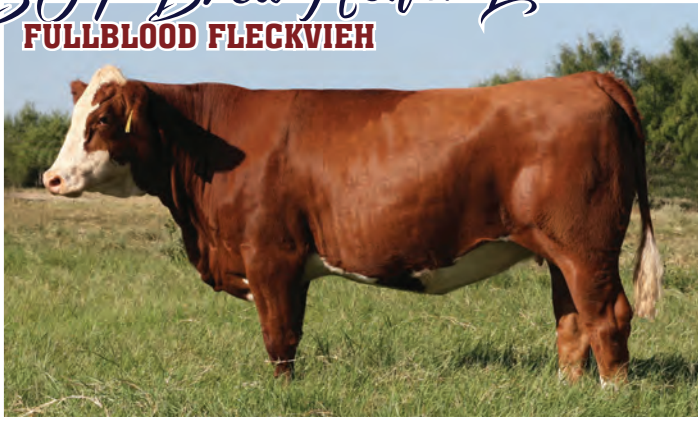

Between 1979 and 1990, he owned and operated a consulting company wherein he designed breeding programs for operations throughout Mexico, Central America, and the U. S. After working with Les Alberthal, whom he knew growing up in Comfort, they collaborated to develop the famed Buzzard Hollow Ranch at Granbury. They scoured the globe to find the best fullblood Simmental and Simbrah genetics, purchasing embryos and live cattle in Canada, Europe, South Africa, and in the U.S. He's been a long-time member of the TSSA, including a term as president, and a founding father of the American Simmental Fleckvieh Federation, serving as President for 15 consecutive years. After being appointed to serve as ASA's official representative to the biannual World Simmental Fleckvieh Federation Congress, he traveled the world-over attending Congresses in South Africa, Brazil, Ireland, Canada, the United Kingdom, Australia, Germany, Columbia, and Poland. In 2020, he completed a four-year obligation as WSFF President.

Presently the managing partner of SOT Simmentals, Schuetze and his wife, Judy, are the parents of two children: Fred, Jr. ("Bud") and JoAnna Keel, plus three grandchildren and two great grandchildren.

La Muneca Embryo Lots

PUREBRED SIMBRAH

PUREBRED SIMBRAH

A rare opportunity to purchase embryos out of the 2024 National Champion Simbrah Female, BLCO LMC Fresca J107. This new donor has made a hand consistently producing functional and eye appealing cattle by multiple sires that have sold with

ease. This mating stems from her most recent flush and is one that we believe should be her best yet due to Rambler's near flawless build coupled with an exceptional pedigree. Fresca is sired by the 2018 National Champion LMC MT Transformer bull and is out of Lorelai Hill's many times champion RFI Scarlett donor. While Rambler is sired by a National Champion himself in LMC Gold Medal and out of the prolific BBS Jennie Walker donor. A potent mating here loaded with potential, do not miss this solid opportunity. Seller guarantees one, 90-day pregnancy if a certified embryologist completes the work. If the three embryos do not result in a minimum of one 90-day pregnancy, an additional embryo out of BLCO LMC Fresca J107 will be provided in lieu of the guarantee. Additional embryo offer expires on September 13, 2026.

Bella Amara is a beautiful balanced slick-haired bred heifer sired by our MCR Aftershock H549 bull, who is a son of MCX Maximus who we brought from Georgia back in 2017. This beauty's dam is MCR Ms Clarabelle C412 whose breeding goes back to Sally Buxkemper's program including the great Becherovka bull on the sire's side and DS Pollfleck 809 on her dam's side. Ms Clarabelle carries a 400-day calving frequency and an average weaning weight of 539 pounds over 8 calves and an API of 95.6. Ms Bella was exposed at 20 months of age to Monte Christo's Finalist 524L bull for easy calving on her first calf (PRR FINALIST 524L is in the top 2% of breed for REA and top 10% for weaning weight, yearling weight and carcass weight.) Fertility is a major priority for Monte Christo, and all of our offerings conceived on their first exposed heat cycle.

Tuesday's Girl is another MCR Aftershock H549 daughter. He consistently produces deep solid red, blazed calves. This gorgeous female's dam is MCX Whata Girl D33 and has been a super productive brood cow with a 361-day calving frequency and an average 504-pound weaning weight with 7 calves. This fancy heifer was bred to Monte Christo's Finalist 524L bull at 20 months of age for a Spring calving date. The service sire, PRR FINALIST 524L, is a calving ease bull who is in the top 2% of breed for REA and top 10% for weaning weight, yearling weight and carcass weight. This extra nice heifer conceived on her first exposed cycle. She is the full package – combining femininity and good structure with early fertility and strong maternal lines. Don't miss this opportunity!

#3781625

MCX MAXIMUS
MCR SHE`S A DREAM F591

BW: 76 | 5/8 SM 3/8 BR

A couple of years ago we started keeping a few black heifers due to customer request of that persuasion, which is why we are bringing this solid black, blazed-faced Monte Christo's Proclaim 11H sweetheart daughter to the Fall Fest. She is docile with great confirmation and polled like all our offerings! She has an 86.4 API. Her MCR Black Beauty H412 dam has given us three black heifers in a row on a 367-day schedule with an average weaning weight of 587 pounds. This fancy heifer is the only daughter we've offered to sell. She conceived on her first heat cycle when exposed to the Finalist 524L bull. The service sire, PRR FINALIST 524L, is a calving ease bull who is in the top 2% of breed for REA and top 10% for weaning weight, yearling weight and carcass weight. As with all our offerings, we guarantee her fertility. If you are looking for strong maternal lines with lots of pigment, look no further!

ZZ FIRECRACKER Y219

BW: 68 | 5/8 SM 3/8 BR

MS Buttercup is an LMC RED ALERT 5A/25 granddaughter out of a Monte Christo PRR Revolution 739B daughter. We bought her sire, HR Awesome D30 from the "Egyptian Prince" Billy Hallack the last year when the Association sponsored a live Simbrah Sale at the Houston Livestock Show. This darling bred heifer has a great set of EPD's highlighted by an 86.1 API, and her dam, MCR She's a Jewel F201, goes all the way back to Hooks Shear Force 38K. Her dam has been a consistent producer for us, giving birth to a calf every 371 days on her first five calves, all of which have been female. Buttercup is bred to the PRR Finalist 524L bull. The service sire, PRR FINALIST 524L, is a calving ease bull who is in the top 2% of breed for REA and top 10% for weaning weight, yearling weight and carcass weight. Don't miss this well-bred heifer!

Country Girl is an outstanding rich red heifer with a beautiful topline. She has a good weaning weight and excellent EPD's. We reached out into the Simmental breed for a bull known for calving ease as well as excellent carcass quality to maintain the choice grade our steers deliver in the feedlot. IR Imperial was the answer. 2 sons of this bull are being used to AI and pasture serve most of our heifers.
